## Valley Studio Coronavirus Operation Phase 2 - Update May 22, 2020

The safety of everyone is most important as we navigate through the many community and national changes happening as a result of this health emergency in our city, state and country. Valley Studio is committed to following the guidelines so that we can move to the next phases of reopening our City and County as quickly as possible.

On May 15, 2020 WA Governor Inslee issued proclamation 20-25 "Resuming Professional Photography" this proclamation served as criteria for Photography Studios to resume operation under Phase 2. This includes both in-Studio and on-Location photography, with specific guidelines which we will be following here at Valley Studio.

We can now have in-person consultation appointments and studio photography sessions with limits on numbers of people present. We can also do small group photography on location. We can also produce your orders and provide in-Studio or Curbside pickup whichever you feel more comfortable with.

Finally if you have an upcoming job that is on location and you wish to hire a photographer, we will consider those jobs on a case by case basis depending on Social Distancing ability and the safety of all involved. Please contact us via our email or website listed at the top of this page.

We are so excited to be returning to service of our community that we have served for 3 decades in the Spokane Valley!

Rob Behm, M.Photog., Hon.M.Photog Cr., CPP, FP
